

Digital Printing and Milling Solutions with Sinclair Dental

Discover how integrating digital conversations and workflows utilizing Sinclair Dental's technology can add a 'wow' factor to routine dental appointments while capturing your much-needed records.

Guest Speaker

Laurie Kyprianou has been helping dental professionals implement multiple brands of digital technology into their practices for over 15 years. Most importantly she provides information and education to Doctors and their teams specifically to discover the digital workflow that best suits their needs. She is dedicated to helping grow your business and connect with you and your team on a meaningful level.
