

## Potpourri of Orofacial Pains

**Course Description:** Dental professionals are not strangers to orofacial pain conditions. Besides Endodontic and Periodontal pathologies there exist a plethora of pain conditions encountered in the dental office. This course takes a bird's eye view of some of the common conditions along with diagnostic and management considerations.

### Learning objectives

1. Describe common orofacial pain conditions beyond dentoalveolar pain
2. Review diagnostic criteria
3. Learn about therapeutic options

### Speaker Bio

**Sripriya “Priya” Jayaraman** has a DDS degree from the University of California in San Francisco, along with MPH from Wichita State University. She also finished a two-year advanced education program in Orofacial Pain and Dental Sleep Medicine from the University of Kentucky in Lexington, KY.
