

## **Prevention and Management of Common Endodontic Complications**

### **Objectives:**

- Describe the most commonly encountered endodontic complications and provide up-to-date information on their prevention and management.
- Explain the importance of accurate diagnosis and treatment planning.
- Outline the role of digital radiography and CBCT in managing complications.

### **Speaker Biography:**

#### **Muna Marashdeh BDS, MSc (Endo), PhD, F.R.C.D(C).**

Dr. Muna Marashdeh is an endodontist based in Toronto. She serves as the President of both the Endodontics Alumni Association at the University of Toronto and the Ontario Society of Endodontics. Dr. Marashdeh holds two Master's degrees in Endodontics—one from Jordan in 2010 and the other from the University of Toronto in 2020, where she also completed her Ph.D. in 2017. With over 10 years of clinical experience, Dr. Marashdeh has published several papers in peer-reviewed journals. She is a lecturer and clinical instructor in both the Postgraduate and Undergraduate Endodontic Programs at the University of Toronto. Additionally, she is a reviewer for various peer-reviewed journals and has received several national and international awards for her research, particularly in the area of root canal sealers.
