

## **It's What? Atypical Presentation of Common Pathoses**

Course Description: Pathology is not a straightforward science, and deviations from the typical manifestation of oral diseases are possible. The aim of this lecture is to explore the atypical presentation of common pathologic entities and to help establish a differential diagnosis that will serve as a guide for clinical management.

### **Objectives:**

1. Identify and describe common oral lesions.
2. Develop a concise differential diagnosis.
3. Learn to manage clinically significant conditions of the oral cavity.

### **Speaker Bio**

Dr. Nadia Marchese is the current Board of Director for Oral Medicine at the Royal College of Dentists of Canada, and she is a professor at the Faculty of Dentistry, University of Toronto, where she directs the undergraduate Oral Medicine & Pathology Course. In addition to private practice, she maintains an active clinical practice limited to Oral Medicine at the Department of Dentistry at Mount Sinai Hospital.
