

Orthodontic Aligner Therapy - Factors and Considerations for Successful Outcomes

with Dr. Caley Hoediono, DDS, MSc, Orthodontist

Lecture Synopsis

Have you ever looked at an orthodontic patient and wondered if you should attempt it with clear aligners? What distinguishes a great aligner case from a disaster? Whether you are new to treating patients or an established clear aligner provider, this lecture will provide an overview of what factors to consider during case selection so that you may treat more patients with successful outcomes.

Speaker Biography

Dr. Caley Hoediono completed her Bachelor of Science at the University of Guelph and Doctor of Dental Surgery at Griffith University, Australia. She obtained her Master of Science in Orthodontics at the University of Manitoba and is a Fellow of the Royal College of Dentists of Canada.

Dr. Hoediono is a practicing Orthodontist in Waterloo, Ontario. She treats patients using a wide array of appliances, including clear aligners. She is both an Invisalign and 3M Clarity provider.

Aside from her passion in Orthodontics, Dr. Hoediono serves on the Waterloo Wellington Dental Society Executive Committee.
